LMA Fastrach™
The most dependable intubating airway for difficult situations.

The ‘can’t intubate – can’t ventilate’ situation is among the most feared and respected challenges in airway management. Designed for the anticipated or unanticipated difficult airway situation and for cardiopulmonary resuscitation, LMA Fastrach™ facilitates continuous ventilation and intubation.

The rigid handle of the device facilitates one-handed insertion, removal and adjustment to enhance oxygenation and alignment with the glottis.

- Proven use in difficult to intubate patients
- Available as a single use device or re-usable up to 40 times
- High insertion success
- Not made with natural rubber latex
- Available in sizes 3, 4 and 5
- Dedicated single use or re-usable endotracheal tubes available for use with LMA Fastrach™

Consider using LMA Fastrach™ for:
- Emergency department
- Theatre
- Pre-hospital
- Ambulance
- Difficult airways
- Crash carts – for can’t intubate can’t ventilate patients

“The LMA Fastrach™ has made the process of blind intubation highly successful, unhurried and safe.”
Korula G. et al., 2007

Re-usable and Single use
